

Expo Color Pack System

GENERAL INFORMATION:

Expo's Exterior stucco pigments are available in color packs to be mixed at the job site with the correct stucco base.

MIXING INSTRUCTION

NOTE: Use one color pack per one sack of base. For best results mix as follows:

Color Packs for each batch shall be mixed in a pail of clean water before being added to the appropriate base as designated on the chart. The diluted color shall be added to 1 sack of base and 5 gallons of water and allowed to completely disperse through the slurry. Add additional sacks of base to complete the batch.
